» What we offer

ASSOCIATE DEGREES AND ONLINE DEGREE COMPLETION PROGRAMS

The University of South Carolina Palmetto College offers the Associate of Science and Associate of Arts programs online and on-campus through our regional campuses of USC Lancaster, USC Salkehatchie, USC Sumter, and USC Union. We also offer 29+ online bachelor's degree completion programs in partnership with the four comprehensive campuses of USC Aiken, USC Beaufort, USC Columbia, and USC Upstate. The programs are developed and taught by professors who teach in the nationally renowned USC System.

Associate degrees

Our associate degrees are great for students with less than 45 credit hours who aim to earn credentials that enable them to enter the job market and concurrently pursue their bachelor's degree. Both programs have a smooth transition into our online bachelor's degree completion programs if you decide to continue.

Bachelor's completion programs

Our bachelor's degree completion programs are ideal for students who have 45 or more college credits and are interested in finishing their bachelor's degree. Choose from 29+ programs within business and leadership, communications, data management, education, healthcare and helping professions, and public service.

“With Palmetto College I could work at my own pace. Whenever I needed extra help, I was able to go meet my professors face-to-face. They are well connected and invested in the community. It was just a great fit for me.

Yanet Alvarez
B.S. in Business Admin. Mgmt.
